Our agreed time-management strategy will be to:

work well ahead of deadlines

Team Leadership:

Team Coding Avengers, will operate under collaborative leadership with all members of the team being able to contribute equally to the structure and rules of the team.

Expectations Policy:

Unsatisfactory performance will be brought to the attention of the member with detailed examples of how expectations are not being met. Help and guidance will be offered to the members such as coaching, training, and other available resources. If performance continues to be unsatisfactory, it will be brought to the attention of the member and the professor if other team members decide it is the best course of action.
